Introduction [page-1-6-1](#)
Protocol [page-1-6-2](#)

Introduction

There are designated Export Certification Specialists who are responsible for assisting line operations to ensure the credibility of EXCERPT and the quality of Federal plant export certificates. State and county cooperators also are involved in issuing Federal plant export certificates. Therefore, in order to quickly respond to inquiries, there are established contacts for your questions, concerns, and suggestions relating to inspecting and certifying commodities, and issuing Federal plant export certificates. See [Table 1-6-1](#) for the established contact protocol to follow.

Protocol

Use **Table 1-6-1** to identify your first, second, third, and last contacts for questions, concerns, or suggestions you may have related to export certification.

TABLE 1-6-1: Contacts for Assistance on Export Certification¹

If you are a:	Then your first contact is:	Then your second contact is:	Then your third/ last contact is:	Then your fourth/ last contact is:	Then your last contact is:
